

FLEX Cupertino - Monta Vista High School Homework Preview Courses

Course Description

After more than a year of remote learning, many students are facing significant challenges with learning loss. Based on our experiences this summer, we have noticed that in many cases, students either have not retained what they have learned or were not taught these topics at all in their previous classes. This learning loss will be felt most severely in courses where prior knowledge forms the basis for much of the course content, i.e. math and AP science courses.

Homework Preview classes are designed to boost students' performance by guiding them through the curriculum of these courses as they are learning it in school. Instructors will preview important upcoming concepts that students will be seeing in school with an emphasis both on reinforcing key prior knowledge and practice with applications to problems. Instructors will also be able to assist with Homework and other course assignments.

Courses Offered:

- PreCalculus: Aug. 30 - Dec. 13 (M, W) | 4:30 - 5:30 pm
- AP Calculus AB: Aug. 30 - Dec. 13 (M, W) | 6 - 7 pm
- AP Chemistry: Aug. 31 - Dec. 9 (T, Th) | 6 - 7 pm
- AP Physics 1: Aug. 31 - Dec. 9 (T, Th) | 7 - 8 pm
- AP Biology: Sept.1 - Dec. 15 (W, F) | 7 - 8 pm

Curriculum

The course will follow along to the school's syllabus and speed.

Instructors:

Courses are helmed by FLEX expert teachers, who not only specialize in their academic content area but also have a consistent track record of preparing students for honors and AP level success

Tuition: \$1,995/ course
