Extracurricular Activities: Summer Planning for 2022

Saturday, November 6th, at 10 a.m. PDT

Virtual Webinar

A student's extracurricular profile has become a significant factor in college admissions, speaking volumes to a student's intellectual curiosity, personal excellence, and character. So how do you go about building one? Should a student display a wide variety of interests, or deep interest in a single field? Do colleges care about the quantity over quality of activities? How can you distinguish yourself from other applicants? This is the time to showcase to colleges your passions and accomplishments outside of the classroom.

Join FLEX in our free webinar as we discuss what an extracurricular activities profile is, the relevance of extracurricular and summer activities, and how to build them seamlessly into a robust and cohesive application profile!
